

e-CODEX Awareness

Activity Curriculum

Webinar

Organiser/host	eu-LISA - European Union Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice
Number of Participants	Open registration
Target group	<p>The target group of this online training activity is</p> <ul style="list-style-type: none"> • Officials from administrative, judicial, or law enforcement authorities dealing with technical management, decision making, or working in the functional use of e-CODEX • Officials that are expected to work with e-CODEX in the future or • Practitioners whose work is/will be significantly affected by the functioning of e-CODEX • National trainers in large-scale IT systems who may be involved in national training campaigns for e-CODEX • EU officials from Eurojust, the European Public Prosecutor's Office, or other EU justice entities. • Any other MS or Justice competent entities' staff who wish to have a basic understanding of different aspects of e-CODEX • Relevant externally contracted staff working on behalf of central and other competent authorities and/or EU institutions
Trainee Requirements	<p>The trainee:</p> <ul style="list-style-type: none"> • The trainee should be proficient in English • The trainee is/will be working for national authorities or other competent Justice domain entities at national level • The trainee is/will be working within JHA Agencies and other EU institutions in a field related with e-CODEX • In the case of externally contracted staff, a NDA with a central or other competent authority and/or a relevant JHA Agency or EU institution is necessary
Overall aim	<p>The overall aim of the webinar is to provide its target audience with the terms, notions, and initial building blocks of knowledge, necessary to understand the workings and purpose of the e-CODEX decentralised IT system.</p> <p>This webinar is best understood as an onboarding resource offering basic information about e-CODEX from multiple perspectives. It additionally serves the purpose of preparing specialised staff for further, in-depth, technical training regarding the functioning of e-CODEX.</p>

After completion of this webinar, the trainee will be able to:

Learning Outcomes

- **Name key milestones** in the history of e-CODEX up to the present day
- **Understand the Architecture** of e-CODEX
- **Explain its fundamental components** and principles, including how it ensures secure and efficient cross-border judiciary data exchange
- **Recognize key Use-Cases** and identify how the system is used in various cross-border judicial cooperation scenarios
- **Navigate the Legal Base**
- **Assess the benefits** of e-CODEX membership and usage for MS and other Justice participating entities
- **Position e-CODEX** within the wider context of decentralisation and justice digitalisation

Content

The content of this training activity will include:
